Woodland

Wetland

## SITE LOCATION

## GENERAL RULES

Site hours are sunrise to sunset.

No alcohol.

Pets must be leashed at all times.

No camping.

No fires.

No removal or disturbance of any plant or animal life.

## INFO AND HISTORY ABOUT SITE

This mature oak woodland exists as it always has right in the middle of Woodstock! Students from Woodstock high school have been working hard to remove invasive species, increase the amount of native species, and build a trail around the wetland. A board walk will be going in fall of 2016 to finish the trail loop.

Many native spring wildflowers bloom here, such as trillium, may apple, and wild leeks.

A large wetland occurs in the middle of the woods, and provides great habitat for birds, turtles, and frogs.
